FRONTEND SKILLS

Markup & Styling

HTML5 (semantic markup), CSS3, Tailwind, Bootstrap 5

Responsive Design

Mobile-first layouts, cross-browser compatibility, browser dev tools for debugging

Design-to-Code

Comfortable translating Figma/Sketch mockups into working UI

Scripting

JavaScript (ES6+), jQuery, AJAX

WEB DEVELOPMENT

Laravel 12, Eloquent ORM, Blade
WordPress, WooCommerce, Shopify
RESTful APIs & JSON

DATA & ANALYTICS SKILLS

Spreadsheets

Excel (SUMIFS, VLOOKUP, pivot tables), Google Sheets

BI & Visualization

Power BI (DAX), Chart.js dashboards

Databases & Querying

SQL/MySQL — multi-table schemas, joins, CASE WHEN, CTEs, window functions

Programming

Python (data scripting), PHP (OOP)

TOOLS

Git/GitHub, XAMPP, VS Code
MS Office (Excel, PowerPoint, Word, Outlook, Teams)

SOFT SKILLS

Data accuracy & attention to detail
Fluent English communication
Fast, independent learner
Reliable, self-directed (5 yrs remote)
Technical documentation & debugging

CERTIFICATIONS

Certified Professional Data Analyst (CPDA) — ExcelHelpline Analytics, Aug 2026

Data Analytics Level 2, MySQL Workshop — ExcelHelpline, Jul 2026 (16 hrs)

Data Analytics Level 1, Excel & Power BI — ExcelHelpline, Jun 2026 (24 hrs)

MAYJHON V. GABUNADA

Full Stack Web Developer | Data Analyst

PROFILE

Frontend Web Developer with hands-on HTML, CSS, and Bootstrap experience — building responsive, mobile-first interfaces, cross-browser-compatible layouts, and translating design mockups into clean, semantic markup through a Laravel-based training program. Comfortable with browser developer tools for debugging and quick to pick up new design systems and style guides. Brings five years of disciplined, U.S.-facing Data Encoder experience — sustained accuracy, independent remote work, and reliability in fully remote roles. Seeking an entry-level remote Frontend Developer opportunity to build and maintain user-friendly, high-traffic web interfaces.

RELEVANT PROJECTS

- **Frostline Boards — Shopify Store Build** (*Shopify, Liquid, HTML/CSS, E-Commerce*): Built and customized a full Shopify storefront using the Horizon theme — custom branding, responsive product pages, an About page, and a branded product collection, matching design specs across desktop and mobile.
- **WordPress & WooCommerce Store Setup** (*WordPress, WooCommerce, HTML/CSS, Theme Customization*): Built a local WordPress site from scratch — configured the Astra theme, customized layout and styling, published content through the Block Editor, and set up a working WooCommerce store with live product listings and pricing.
- **Laravel Admin Dashboard — Capstone** (*Laravel, Blade, Tailwind CSS, Bootstrap, JavaScript/jQuery*): Built a full-stack admin dashboard with responsive Tailwind/Bootstrap layouts, reusable Blade components, and AJAX-driven live search — including cross-browser testing and UI debugging with browser dev tools.
- **DPWH Flood Control Dashboard** (*HTML, CSS, Chart.js, KPI Cards*): Built a single-file, cross-browser dashboard with responsive KPI cards, cross-page filters, and a Gantt-style project timeline — hand-coded HTML/CSS layout, no framework.
- **Product Inventory Database** (*MySQL*): Designed and implemented a relational database for inventory tracking, including query optimization and schema expansion for reporting needs.
- **Python Fundamentals Practice** (*Python*): Completed extensive data-scripting and debugging exercises, building comfort working with data programmatically.

WORK EXPERIENCE

Data Encoder (Work from Home) *Health Care Solutions Team* 2020 – 2023

- Encoded and organized U.S.-based client records over a 3-year period in a remote, work-from-home setup — independently managing data accuracy without direct supervision.
- Maintained consistent accuracy and reliability while working to strict data-quality standards across sustained U.S. client work.
- Handled high-volume data entry with strong attention to detail, a core requirement for spotting data anomalies and inconsistencies.

Data Encoder *Callvation* 2017 – 2019

- Encoded and processed client records accurately in a fast-paced, target-driven environment.
- Maintained data quality and consistency across high-volume entry work.
- Developed strong discipline and time-management skills relevant to managing multiple client reporting needs.

EDUCATION & TRAINING

Full Stack Data Analyst Training *ExcelHelpline.ph* 2026

- Completed an intensive 3-month training program covering data analysis, SQL/MySQL database management, and Python programming.
- Built practical projects including a product inventory database with query design and schema development.

Full Stack Web Developer & Full Stack Data Analytics *CIIT College, Cebu*

- Completed coursework in full stack web development, covering front-end, back-end, JavaScript/jQuery, RESTful APIs, and Laravel fundamentals.

Bachelor of Science in Industrial Engineering *CIT University*

- Trained in structured, analytical problem-solving.
