CAREER OBJECTIVE

Motivated and detail-oriented Full Stack Web Developer and Data Analyst with hands-on training in Laravel web development, WordPress/WooCommerce, Shopify theme customization, database management, and programming fundamentals. Brings five years of professional experience in fast-paced, U.S.-facing data encoding roles, with strong accuracy, discipline, and adaptability. Seeking an entry-level opportunity to apply technical skills in web development and data analysis while continuing to grow professionally.

SKILLS

- **Programming Languages:** Python, PHP (Object-Oriented Programming)
- **Frameworks:** Laravel 12 — Eloquent ORM, middleware, authentication & authorization, Blade components, CRUD applications
- **Database Management:** SQL, MySQL — schema design, queries, and database development
- **Web Development:** HTML, CSS, Tailwind CSS, Bootstrap 5, Alpine.js, AJAX, Full Stack Web Development fundamentals
- **CMS & E-Commerce Platforms:** WordPress (Astra theme, Block Editor), WooCommerce (product listings, pricing, sale discounts), Shopify (Liquid-based theme customization, store setup, branding)
- **Data Analysis:** Data organization, reporting, and basic analytics tools
- **Other Tools:** Git/GitHub, XAMPP, VS Code, Microsoft Office (Word, Excel)
- **Soft Skills:** Data accuracy, attention to detail, communication, problem-solving, adaptability

WORK EXPERIENCE

Data Encoder (Work from Home) | *Health Care Solutions Team* 2018 – 2021

- Encoded and organized U.S.-based client records over a 3-year period in a remote, work-from-home setup.
- Maintained consistent accuracy and reliability while working independently in a home-based role.
- Handled high-volume data entry with strong attention to detail across sustained U.S. client work.

Data Encoder | *Callvation* 2015 – 2017

- Encoded and processed client records accurately in a fast-paced, target-driven environment.
- Maintained data quality and consistency across high-volume entry work.
- Worked efficiently for two years, developing strong discipline and time-management skills.

EDUCATION & TRAINING

Full Stack Web Developer & Full Stack Data Analytics | *CIIT College, Cebu*

- Completed coursework in full stack web development, covering front-end, back-end, and Laravel fundamentals.

Full Stack Data Analyst Training | *ExcelHelpline.ph* 2026 (3-month program)

- Completed an intensive 3-month training program covering data analysis, SQL/MySQL database management, and Python programming.
- Built practical projects including a product inventory database with query design and schema development.

Bachelor of Science in Industrial Engineering | *Ikon College* 2012 – 2014

- Completed 2 years of undergraduate study toward a Bachelor of Science in Industrial Engineering.

CERTIFICATIONS

- Certified Professional Data Analyst (CPDA) — ExcelHelpline Analytics, Aug 2026 (ID: 2026042614)
- Data Analytics Level 2, MySQL Workshop (16 hrs) — ExcelHelpLine, Jul 2026 (Cert No. DAL2-2026-042612)
- Data Analytics Level 1, Excel & Power BI Workshop (24 hrs) — ExcelHelpLine, Jun 2026 (Cert No. ADL1-2026-042620)

PROJECTS

- **Frostline Boards — Shopify Store Build** (Shopify, Liquid, E-Commerce): Built and customized a full Shopify storefront using the Horizon theme — custom navy/ice-blue branding, an About page, a customized flagship product with real photography, a polished footer with email signup, and a branded product collection.
- **WordPress & WooCommerce Store Setup** (WordPress, WooCommerce, Theme Customization): Built a local WordPress site from scratch — installed and configured the Astra theme, published content through the Block Editor, and set up a working WooCommerce store with a live product listing, pricing, and sale discounts.
- **Laravel Admin Dashboard — Capstone** (Laravel, Eloquent, Blade, Tailwind CSS, Alpine.js): Built a full-stack admin dashboard with MVC architecture, role-based authentication and middleware guards, reusable Blade components, and AJAX-driven interactivity.
- **Laravel Blog & E-Commerce Platform** (Laravel 12, MySQL, Eloquent): Built a multi-user application with role-based authentication and authorization, custom middleware, avatar uploads, and full CRUD across products, orders, and posts.
- **Product Inventory Database** (MySQL): Designed and implemented a relational database for inventory tracking, including query optimization and schema expansion.
- **PHP OOP Library Management System**: Built a capstone project applying classes, inheritance, polymorphism, and encapsulation.
- **Python Fundamentals Practice**: Completed extensive exercises in Python programming, including debugging and scripting tasks.
