CAREER OBJECTIVE

Motivated and detail-oriented Full Stack Web Developer and Data Analyst with hands-on training in Laravel web development, database management, and programming fundamentals. Brings five years of professional experience in fast-paced, U.S.-facing customer service environments, with strong communication skills, discipline, and adaptability. Seeking an entry-level opportunity to apply technical skills in web development and data analysis while continuing to grow professionally.

SKILLS

- Programming Languages: Python, PHP (Object-Oriented Programming)
- Frameworks: Laravel 12 — Eloquent ORM, middleware, authentication & authorization, CRUD applications
- Database Management: SQL, MySQL — schema design, queries, and database development
- Web Development: HTML, CSS, Bootstrap 5, Full Stack Web Development fundamentals
- Data Analysis: Data organization, reporting, and basic analytics tools
- Other Tools: Git/GitHub, XAMPP, VS Code, Microsoft Office (Word, Excel)
- Soft Skills: Customer service, communication, problem-solving, adaptability, teamwork

WORK EXPERIENCE

Outbound Call Center Agent (Work from Home) | *Health Care Solutions Team* 2018 – 2021

- Made outbound calls to U.S.-based clients over a 3-year period in a remote, work-from-home setup.
- Maintained consistent performance and reliability while working independently in a home-based role.
- Built strong communication and rapport-building skills through sustained U.S. client interaction.

Call Center Agent | *Teleperformance* 2015 – 2017

- Handled inbound and outbound customer calls, addressing inquiries and resolving concerns professionally.
- Maintained high customer satisfaction ratings through clear communication and effective problem-solving.
- Worked efficiently in a fast-paced, target-driven environment for two years, developing strong discipline and time-management skills.

EDUCATION & TRAINING

Full Stack Web Developer & Full Stack Data Analytics | *CIIT College, Cebu*

- Completed coursework in full stack web development, covering front-end, back-end, and Laravel fundamentals.

Full Stack Data Analyst Training | *ExcelHelpline.ph* 2026 (3-month program)

- Completed an intensive 3-month training program covering data analysis, SQL/MySQL database management, and Python programming.
- Built practical projects including a product inventory database with query design and schema development.

Bachelor of Science in Industrial Engineering | *Ikon College* 2012 – 2014

- Completed 2 years of undergraduate study toward a Bachelor of Science in Industrial Engineering.

CERTIFICATIONS

- Certified Professional Data Analyst (CPDA) — ExcelHelpline Analytics, Aug 2026 (ID: 2026042614)
- Data Analytics Level 2, MySQL Workshop (16 hrs) — ExcelHelpLine, Jul 2026 (Cert No. DAL2-2026-042612)
- Data Analytics Level 1, Excel & Power BI Workshop (24 hrs) — ExcelHelpLine, Jun 2026 (Cert No. ADL1-2026-042620)

PROJECTS

- Laravel Blog & E-Commerce Platform (Laravel 12, MySQL, Eloquent) — Built a multi-user application with role-based authentication and authorization, custom middleware, avatar uploads, and full CRUD across products, orders, and posts.
- Product Inventory Database (MySQL) — Designed and implemented a relational database for inventory tracking, including query optimization and schema expansion.
- PHP OOP Library Management System — Built a capstone project applying classes, inheritance, polymorphism, and encapsulation.
- Python Fundamentals Practice — Completed extensive exercises in Python programming, including debugging and scripting tasks.
