WEB DEVELOPMENT

Frameworks: Next.js (App Router, Server Actions), React, Laravel 12 (Eloquent ORM, Blade)

Languages: TypeScript, JavaScript (ES6+), PHP (OOP), HTML, CSS, SQL

UI: Tailwind, Bootstrap 5, jQuery & AJAX

CMS: WordPress, WooCommerce, Shopify (Liquid)

APIs: RESTful APIs & JSON

DATA & ANALYTICS

Databases: PostgreSQL (Supabase, Row Level Security), MySQL: joins, CTEs, window functions

BI & Visualization: Power BI (DAX), Chart.js dashboards

Spreadsheets: Excel (SUMIFS, VLOOKUP, pivot tables), Google Sheets

Programming: Python (data scripting)

TOOLS & DEPLOYMENT

Git/GitHub, VS Code, XAMPP, WSL2

Netlify, GitHub Pages, environment variables, CI from GitHub

AI coding tools (Claude)

MS Office (Excel, Word, PowerPoint, Outlook, Teams)

SOFT SKILLS

Data accuracy & attention to detail
Fluent English communication
Fast, independent learner
Reliable, self-directed (5 yrs remote)

MAYJHON V. GABUNADA

Full Stack Web Developer | Data Analyst

PROFILE

Detail-driven Full Stack Web Developer and Data Analyst who builds and deploys complete web applications with Next.js, TypeScript, Supabase (PostgreSQL), and Laravel, plus WordPress/WooCommerce and Shopify. Brings five years of disciplined, U.S.-facing Data Encoder experience: sustained accuracy, independent remote work, and comfort adapting to new tools and requirements. Certified Professional Data Analyst (CPDA) seeking an entry-level role to ship real features and keep growing professionally.

RELEVANT PROJECTS

- **Apartment Finder** (*Next.js, TypeScript, Supabase/PostgreSQL, Netlify*): Built and deployed a bilingual (English/Dutch) rental platform with filterable listings, an apply form using Server Actions with server-side validation, a password-protected admin pipeline for tracking applications, and a JSON API. Designed relational tables with foreign keys and Row Level Security, and kept the database secret key server-side. Live: apartment-finder-mgabunad.netlify.app
- **Laravel Admin Dashboard (Capstone)** (*Laravel, Eloquent, Blade, Tailwind CSS, JavaScript/jQuery*): Built a full-stack admin dashboard with role-based access through custom middleware, full CRUD, reusable components, and AJAX-driven live search with debouncing.
- **DPWH Flood Control Dashboard** (*Chart.js, KPI Cards, Data Visualization*): Built an analytics dashboard with cross-page filters, a Gantt-style project timeline, and KPI cards, surfacing patterns in public infrastructure data for quick, decision-ready reporting.
- **Product Inventory Database (MySQL)**: Designed a relational database for inventory tracking, including query optimization and schema expansion for reporting needs.
- **Shopify Store Builds & Custom Liquid Sections** (*Shopify, Liquid, E-Commerce*): Built and customized Shopify storefronts on the Horizon theme, and wrote custom Online Store 2.0 sections with variant selectors, live price updates, and merchant settings.
- **WordPress & WooCommerce Store** (*WordPress, WooCommerce, Astra*): Built a WordPress site from scratch with a working WooCommerce store, product categories, and pricing.

WORK EXPERIENCE

- Data Encoder (Work from Home)** | *Health Care Solutions Team* 2020 – 2023
- Encoded and organized U.S.-based client records over a 4-year period in a remote, work-from-home setup, independently managing data accuracy without direct supervision.
 - Maintained consistent accuracy and reliability while working to strict data-quality standards.
 - Handled high-volume data entry with strong attention to detail, spotting anomalies and inconsistencies.

- Data Encoder** | *Callvation* 2017 – 2019
- Encoded and processed client records accurately in a fast-paced, target-driven environment.
 - Maintained data quality and consistency across high-volume entry work, building strong discipline and time-management skills.

EDUCATION & TRAINING

- Full Stack Data Analyst Training** | *ExcelHelpline.ph* 2026 (3-month program)
- Intensive training in data analysis, SQL/MySQL, and Python programming.

- Full Stack Web Developer & Full Stack Data Analytics** | *CIIT College, Cebu*
- Coursework in front-end, back-end, JavaScript/jQuery, RESTful APIs, and Laravel.

- Bachelor of Science in Industrial Engineering** | *CIT University* 2012 – 2016
- Trained in structured, analytical problem-solving.

CERTIFICATIONS

- **Certified Professional Data Analyst (CPDA)**: ExcelHelpline Analytics, Aug 2026
- **Data Analytics Level 2, MySQL Workshop**: ExcelHelpline, Jul 2026 (16 hrs)
- **Data Analytics Level 1, Excel & Power BI**: ExcelHelpline, Jun 2026 (24 hrs)
